

COVID

# Info

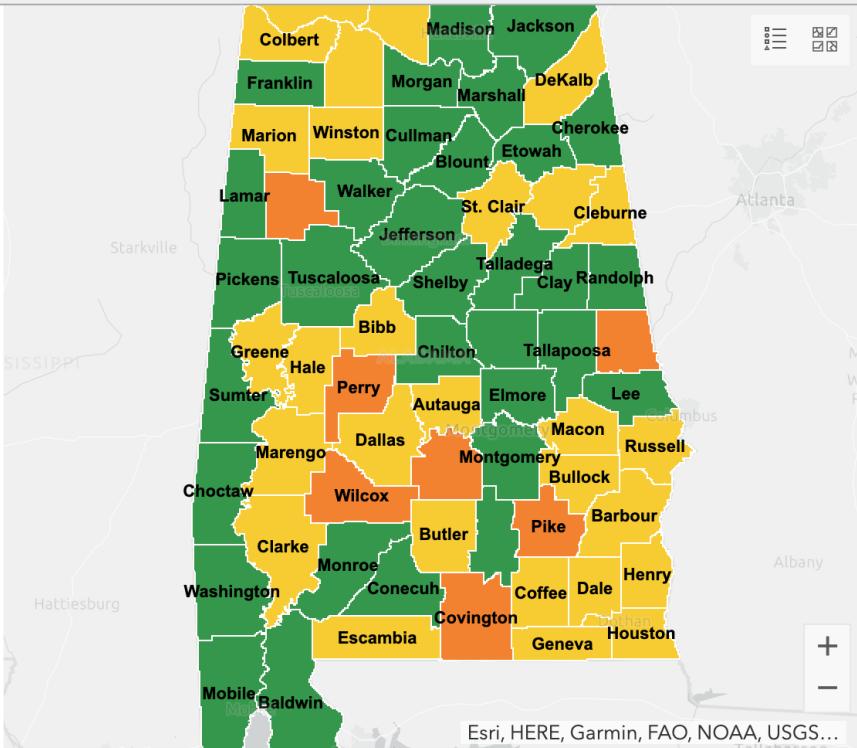

**Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that caused COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China. COVID-19 is a disease caused by SARS-CoV-2 that can trigger what doctors call a respiratory tract infection. It can affect your upper respiratory tract (sinuses, nose, and throat) or lower respiratory tract (windpipe and lungs) ranging in intensity.**

# Covid-19 Case Map

COVID-19 Risk Indicator by County

- Low Risk
- Moderate Risk
- High Risk
- Very High Risk
